# REAL PROPERTY MAINTENANCE ACTIVITIES

## FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u> (\$000)
AL	MAXWELL AIR FORCE BASE	REPAIR BASE ROADS	500
		Project repairs streets throughout the base. Pavement conditions range from areas which have failed to those which are near failure. If this project is not accomplished, deterioration will continue causing more extensive future repairs and increase potential for vehicle damage.	
AK	EIELSON AIR FORCE BASE	ASBESTOS ABATEMENT	3,900
		Asbestos abatement to include reinsulating and replacing deteriorated utility lines and valves. The asbestos is old, deteriorating, and poses a health hazard to personnel. If this project is not accomplished, personnel will continue to be subjected to this potential health hazard.	
AK	ELMENDORF AIR FORCE BASE	PAINT EXTERIORS	805
		Project will paint exteriors of various base facilities. Due to severe weather conditions, the exterior paint on base buildings is deteriorating. This weathering has resulted in some structural damage as well. If this project is not accomplished, further deterioration and possible damage to structures may result.	

DoD Component: Air Force  
Appropriation: O&M(3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	((\$000)) <u>Cost</u>
--------------	------------------------------	----------------------	--------------------------

AK	ELMENDORF AIR FORCE BASE	REPAIR STEAM LINES	600
----	--------------------------	--------------------	-----

Project repairs steam pipes and condensate lines. The existing system is old and piping is corroded. If not repaired, increasing unreliability of service will hinder effective mission support. If this project is not accomplished, deterioration will continue and force more costly repairs in the future.

AZ	DAVIS MONTHAN AIR FORCE BASE	REPAIR BASE ROADS	600
----	------------------------------	-------------------	-----

Project repairs pavements which have deteriorated over time due to adverse weather conditions and normal vehicular traffic use. Further neglect will cause additional deterioration resulting in more extensive repairs. Failure to repave the roads will result in pavement failure, thus increasing the hazard to vehicles.

AZ	LUKE AIR FORCE BASE	REPAIR BASE ROOFS	800
----	---------------------	-------------------	-----

Project repairs roofs on several facilities. Roofs are beyond their useful life and are beginning to fail even with increased maintenance. If this project is not accomplished, deterioration will continue causing more extensive future repairs.

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

(\$000)  
Cost

State      Location/Installation

Project Title

AZ      LUKE AIR FORCE BASE

REPAIR THRESHOLD LIGHTING

900

Project replaces antiquated electrical wiring and fixtures as required to bring it up to current standards. If this project is not accomplished, the reliability of the airfield lighting system will be unnecessarily jeopardized.

AZ      LUKE AIR FORCE BASE

REPAIR AIRFIELD PAVEMENTS

500

Project will seal all joints on the north apron. Joint material has deteriorated and must be replaced to keep water infiltration from damaging the pavement. The pavement is starting to spall increasing potential foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue causing more extensive future repairs.

AR.      LITTLE ROCK AIR FORCE BASE

REPAIR FIRE PROTECTION

1,900

Project replaces current hangar deluge system with an aqueous foam forming film (AFFF) system in accordance with National Fire Protection Association guidelines. If this project is deferred, the hangar will continue to be protected with an antiquated fire protection system.

**REAL PROPERTY MAINTENANCE ACTIVITIES**  
**FY 1996/FY 1997 PRESIDENT'S BUDGET**  
**FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects**  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( \$000 ) <u>Cost</u>
CA 620	BEALE AIR FORCE BASE	REPAIR WELL LATERALS	
Project repairs lateral piping connecting nine wells. The existing system is over 50 years old and has developed numerous leaks causing water curtailments and excessive repairs. If this project is not accomplished, the base water supply will become increasingly unreliable and costly to maintain.			
CA	BEALE AIR FORCE BASE	REPAIR TRANSPORTATION FACILITY	700
Project repairs electrical power, lighting, HVAC, plumbing, abates asbestos and revitalizes interior finishes in the transportation facility. The facility is over 40 years old, has had minimal repairs and is no longer functionally adequate to meet the needs of assigned personnel. If this project is not accomplished, the transportation facility will continue to deteriorate having a negative impact on the work place quality and the transportation squadron's ability to function efficiently.			
CA	MCCLELLAN AIR FORCE BASE	REPAIR BASE ROADS	1,265
Project repairs and maintains streets base wide. Pavement conditions range from areas which have failed to those which are near failure. If this project is not accomplished, deterioration will continue causing more extensive future repairs and increase potential for vehicle damage.			

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

(\$000)

Cost

State

Location/Installation

Project Title

CA

TRAVIS AIR FORCE BASE

REPAIR TAXIWAY

2,900

Project replaces broken concrete slabs and old joint sealing on the taxiway. The broken concrete slabs and badly spalled areas create a potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue causing more extensive future repairs.

CA

TRAVIS AIR FORCE BASE

REPAIR AIRFIELD PARKING

600

Project repairs aircraft parking area which is cracked and spalled. The cracked and spalled areas create a potential for foreign object damage. If this project is not accomplished, deterioration will continue causing more extensive future repairs.

CA

VANDENBERG AIR FORCE BASE

REPAIR BASE ROOFS

800

Project repairs severely deteriorating built-up roofing on various facilities. Existing roofing is failing and threatens to expose interior finishes and equipment to damaging water intrusion. If this project is not accomplished, moisture problems and leak conditions will accelerate leading to more expensive repairs.

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( <u>\$000</u> ) <u>Cost</u>
DE	DOVER AIR FORCE BASE	REPAIR ROOF	770
		Project will replace existing built-up roof in aircrew training facility to correct the current leaking system. The existing roof is cracked and bubbling, resulting in unsafe occupancy, and unnecessary damage to the structure and interior finishes. Leaks could also damage expensive electronic aircrew trainers housed in this facility.	
DE	DOVER AIR FORCE BASE	REPAIR/MAINTAIN TAXIWAY	600
		Project will overlay taxiway with new asphalt. The existing asphalt is badly weathered and cracked. The pavement has not failed structurally, but the existing cracking will cause the pavement to fail rapidly if aircraft traffic continues. If this project is not accomplished, deterioration will continue causing more extensive future repairs.	
FL	CAPE CANAVERAL AIR FORCE STATION	REPAIR BASE ROOFS	500
		Project will repair roofs on various facilities including replacement of flashing, deck repair, felt replacement, tar and gravel as required. If this project is not accomplished, roofs will continue to deteriorate putting facility contents and personnel at risk during peak seasonal storms.	

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

(\$000)  
Cost

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	
FL	MACDILL AIR FORCE BASE	REPAIR WATER LINES	620
	Project will repair failed water distribution lines. System is experiencing severe pressure problems due to improper looping and silicate and calcium buildups. This project is required for efficient operation of the system.		
FL	MACDILL AIR FORCE BASE	REPAIR BASE ROOFS	831
	Project repairs severely deteriorating built-up roofing on various facilities. Existing roofing is failing and threatens to expose interior finishes and equipment to damaging water intrusion. If this project is not accomplished, moisture problems and leak conditions will accelerate leading to more expensive repairs.		
FL	PATRICK AIR FORCE BASE	REPAIR WATER LINES	500
	Project replaces base water lines. The existing lines are old and are no longer efficient to supply potable water to base facilities. Failure to complete this project will force use of leaking water lines with high repair costs.		

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( \$000 ) <u>Cost</u>
--------------	------------------------------	----------------------	--------------------------

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( \$000) <u>Cost</u>
FL	PATRICK AIR FORCE BASE	REPLACE GAS LINES	500
	Project replaces underground gas lines. Many of these lines have deteriorated due to extremely corrosive conditions and must be replaced. If this project is not accomplished, corrosion will continue causing potentially dangerous gas leaks.		
FL	TYNDALL AIR FORCE BASE	REPLACE WATER LINES	1,950
	Project replaces water mains and distribution lines. The water lines are over 50 years old and should be replaced before failure.		
GA	MOODY AIR FORCE BASE	REPAIR BASE ROADS	600
	Project repairs roads base wide which are showing extensive cracking of the asphalt pavement. In many places, water is pumping up from the sub-base course as well as infiltrating from the surface due to rainfall. Failure to repave the roads will result in pavement failure which will increase future repair costs.		

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( <u>\$000</u> ) <u>Cost</u>
GA	ROBINS AIR FORCE BASE	REPAIR BOILER	1,500
	Project replaces existing 20 year old main boiler. The existing boiler has exceeded its useful life and the frequency of repairs increases each year. Boiler failure would seriously impair vital depot maintenance and logistics operations.		
GA	ROBINS AIR FORCE BASE	REPAIR AIRFIELD PAVEMENTS	700
	Project repairs taxiways and aprons including resealing joints, patching cracks and replacing occasional shattered slabs. Work is needed to maintain pavement in usable condition. The cracked pavement presents a safety hazard as it increases the potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue causing more extensive future repairs.		
GU	ANDERSEN AIR FORCE BASE	REPAIR APPROACH LIGHTING	2,280
	Project repairs runway approach lighting. The existing system does not meet Federal Aviation Administration (FAA) standards or configuration. If this project is not accomplished, the integrity of the airfield lighting system will be jeopardized unnecessarily.		

DoD Component: Air Force  
Appropriation: O&M (3400)

## REAL PROPERTY MAINTENANCE ACTIVITIES

### FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u> (\$000)
HI	HICKAM AIR FORCE BASE	REPAIR ELECTRICAL DISTRIBUTION	590
Project replaces existing overhead electrical distribution system with an underground system. The corrosive environment causes high maintenance of these utilities and an abnormally high number of power outages. If this project is not accomplished, the existing overhead distribution system will continue to deteriorate causing more extensive future repairs.			
ID	MOUNTAIN HOME AIR FORCE BASE	REPAIR TAXIWAY	1,000
Project repairs taxiway which connects the runway to the arm/de-arm pad. Slabs throughout this area are cracked and spalled presenting severe foreign object damage hazard to aircraft engines. If this project is not accomplished, taxiway pavements will continue to deteriorate causing more extensive future repairs.			
IL	SCOTT AIR FORCE BASE	REPAIR WATER DISTRIBUTION	500
Project replaces existing water valves, pumps and meters which have deteriorated. The pumps cause surging and hammering in the system. Existing pressure relief valves do not function and the chlorine flow meter is inoperable. If this project is not accomplished, the water distribution system will continue to deteriorate causing more extensive future repairs.			

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	((\$000) <u>Cost</u>
KS	MCCONNELL AIR FORCE BASE	REPAIR LIGHTING SYSTEM	680
	Project replaces old, deteriorated electrical ducts containing cable runs for the airfield lighting system. Existing ducts have collapsed, filled with mud and water, or contain conductors which have shorted out and been abandoned in place. Failure of these ducts results in degraded operation of airfield lighting systems and subsequent closure of runways and taxiways. Project is required to ensure the reliability of the airfield lighting system.		
LA	BARKSDALE AIR FORCE BASE	REPAIR EROSION, STORAGE IGLOOS	500
	Project restores earthen cover on munitions storage igloos. Existing earthen cover has eroded to less than the 24 inches required to store the net explosive weight these igloos were designed to store. Without the minimum earth cover, it is necessary to constantly relocate and rewarehouse munitions to support mission requirements, resulting in wasted manpower and reduced munitions storage capacity.		
LA	BARKSDALE AIR FORCE BASE	REPAIR BOUNDARY FENCE	900
	Project repairs the boundary fence around the entire 25 mile base perimeter by replacing missing or deteriorated sections of the fence. The existing fence is deteriorating and compromises adequate security of the base perimeter. The perimeter fence is required to facilitate base security and entry control by providing a physical barrier from adjacent residential, commercial and agricultural areas.		

DoD Component: Air Force  
Appropriation: O&M (3400)

## REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( \$000 ) <u>Cost</u>
MD	ANDREWS AIR FORCE BASE	REPAIR AIRFIELD PAVEMENTS	2,000
	Project removes existing asphalt pavement and replaces taxiway surface with concrete and the shoulders with asphalt. The pavement is not structurally adequate and presents an increasing potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue causing more extensive future repairs.		
MD	ANDREWS AIR FORCE BASE	REPAIR AIRFIELD LIGHTING	2,000
	Project replaces generators and switchgear which have reached their life cycle end. Existing system is overloaded and unable to meet requirements of modern equipment. Failure of this equipment would close base operations.		
MS	COLUMBUS AIR FORCE BASE	REPAIR TAXIWAY	600
	Project repairs cracked slabs and seals all joints on the taxiway. Joint material has deteriorated and must be replaced to keep water from entering the joints and damaging the concrete. Damaged concrete greatly increases the potential for foreign object damage to aircraft engines. If this project is not accomplished, more extensive future repairs will be required.		

# REAL PROPERTY MAINTENANCE ACTIVITIES

## FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( \$000) <u>Cost</u>
MO	WHITEMAN AIR FORCE BASE	REPAIR WATER LINES	660
Project replaces portions of the main water distribution lines which are in deteriorated condition. This project is necessary to keep the water distribution system operational.			
MO	WHITEMAN AIR FORCE BASE	REPAIR BASE ROADS	550
Project repairs and overlays a portion of the base roads. Pavement has deteriorated from age, weather, and heavier than normal vehicle usage due to major construction activity over the recent years. Periodic repair and overlay is necessary to prevent water penetration into the base material which results in more expensive repair costs.			
MO	WHITEMAN AIR FORCE BASE	REPAIR ROOFS	550
Project replaces existing leaking roofs on various facilities. Existing roofs are failing and threaten to expose building occupants and equipment to damaging water intrusion. If not repaired, moisture problems and leak conditions will accelerate and ultimately require more extensive repairs.			

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES  
FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u> (\$000)
MT	MALMSTROM AIR FORCE BASE	REPAIR ROOFS	1,422
		Project will replace existing built-up leaking roofs on nine facilities. Existing roofs are failing and threaten to expose building occupants and equipment to damaging water intrusion. If not repaired, moisture problems and leak conditions will accelerate and ultimately require more extensive repairs.	
MT	MALMSTROM AIR FORCE BASE	REPAIR HEATING LINES	675
		Project replaces insulation on high temperature hot water lines and repairs valves and manholes. Valves cannot be efficiently repaired due to non-availability of parts. Manholes are inadequate and need to be replaced. Lack of insulation is causing heat loss and causing vegetation to die directly above trenches due to extreme temperatures. If this project is not accomplished, energy losses and excessive maintenance costs will continue to increase.	

DoD Component: Air Force  
Appropriation: O&M (3400)

## REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( \$000) <u>Cost</u>
NE	OFFUTT AIR FORCE BASE	REPAIR BUILDING EXTERIOR	1,000
	Project replaces failing siding on the Headquarters Strategic Command (STRATCOM) facility. Water vapor penetration followed by cold weather expansion has resulted in failure of the brick facing support system of the exterior walls, leading to spalling of window sills and falling bricks. This is a safety hazard to personnel and will lead to further property damage. Without this project, the exterior brick wall facing system will continue to deteriorate each winter, increasing the risk of injury to personnel and property as well as extensive structural damage to the facility itself.		
NV	NELLIS AIR FORCE BASE	REPAIR MECHANICAL SYSTEM	925

Project replaces old, deteriorated heating, ventilation and air conditioning systems in Data Processing. The systems are over 35 years old, require frequent maintenance, and can no longer meet peak load demands. Failure of any of these units would create serious problems for assigned personnel and adversely impact the functions involved.

DoD Component: Air Force  
Appropriation: O&M (3400)

## REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

(\$000)  
Cost

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	
NV	NELLIS AIR FORCE BASE	REPAIR TAXIWAY B	560
<p>Project repairs old, deteriorated concrete taxiway. Taxiway B is the major center connecting taxiway for the dual runway system at Nellis. The taxiway has deteriorated beyond normal maintenance capabilities and has become a major foreign object damage problem for aircraft. Its current condition presents a serious risk for damage to the engines of fighter and bomber aircraft using this taxiway. Rerouting the aircraft would cause serious congestion on the runways and adversely affect the flying mission.</p>			
NV	NELLIS AIR FORCE BASE	REPAIR ROOFS	800
<p>Project replaces deteriorated roofs on several facilities throughout the base. Chronic leaks are prevalent, causing water damage to the structure, interior finishes, and facility equipment. If this project is not accomplished, deterioration will continue and require more extensive future repairs.</p>			
NJ	MCGUIRE AIR FORCE BASE	REPLACE STEAM LINES	1,800
<p>Project replaces high temperature hot water pipes and condensate lines. The existing system is 20 years old and corroded. If not repaired, the situation will get worse as increased unreliability of service will hinder effectiveness of mission support.</p>			

DoD Component: Air Force  
Appropriation: O&M(3400)

## REAL PROPERTY MAINTENANCE ACTIVITIES

### FY 1996/FY 1997 PRESIDENT'S BUDGET

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

(\$000)

Cost

State      Location/Installation

Project Title

NJ

MCGUIRE AIR FORCE BASE

REPAIR APPROACH LIGHTING

550

Project replaces existing non-frangible approach lighting with a frangibly mounted, variable intensity lighting system. The existing system is single intensity and mounted on non-frangible wooden utility poles. Single intensity systems are no longer manufactured and no spare parts can be obtained. If this project is not accomplished, the integrity of the airfield lighting will be jeopardized unnecessarily.

NJ

MCGUIRE AIR FORCE BASE

REPAIR TAXIWAY LIGHTING

500

Project replaces taxiway lighting including replacement of direct buried cables with a ducted system and replacement of incandescent lamps with quartz lamps. The quality of lighting is poor and the direct buried cable has frequent failures which are time and labor intensive to repair. If this project is not accomplished, excessive and expensive lighting system failures will continue.

NM

CANNON AIR FORCE BASE

REPAIR ROOFS

600

Project repairs severely deteriorating built-up roofing on multiple base buildings. Chronic leaks are causing damage to the structure, interior finishes and facility equipment. If this project is not accomplished, deterioration will continue and require more extensive future repairs.

DoD Component: Air Force  
Appropriation: O&M (3400)

(\$000)  
Cost

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	
NM	HOLLOMAN AIR FORCE BASE	REPAIR WATER DISTRIBUTION	3,000
	Project replaces portions of water supply line to the base. Existing line is almost 40 years old and is no longer capable of delivering water to satisfy base requirements. This places total water supply dependency on well fields. Since this pipeline serves both the city of Alamogordo and the base, repair and operation cost are shared. If this project is not accomplished, critical water shortages could occur.		
NM	HOLLOMAN AIR FORCE BASE	REPAIR ROOFS	550
	Project repairs severely deteriorating built-up roofing on several facilities. Chronic leaks are causing damage to the structure, interior finishes and facility equipment. If this project is not accomplished, deterioration will continue causing more extensive future repairs.		
NM	KIRTLAND AIR FORCE BASE	REPLACE TRAFFIC LIGHTS	1,000
	Project replaces existing antiquated traffic light system. Existing system is overloaded, breaks down frequently and is difficult to maintain due to part non-availability. If this project is not accomplished, a major fault could occur causing a serious accident with loss of life and damage to property.		

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	((\$000) Cost
NM	KIRTLAND AIR FORCE BASE	REPAIR MECHANICAL SYSTEMS	800
		Project repairs systems in several facilities base wide. Existing systems are old, require frequent maintenance, and can no longer meet peak load demands. This project will decrease maintenance costs and improve efficiency and living conditions.	
NM	KIRTLAND AIR FORCE BASE	REPAIR APRON	4,600
		Project will repair existing apron which is experiencing extreme weathering and block cracking. Work is needed to maintain pavement in usable condition. The cracked pavement presents a safety hazard as it increases the potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue, causing more extensive future repairs.	
NC	POPE AIR FORCE BASE	REPAIR ELECTRICAL DISTRIBUTION	600
		Project replaces old, deteriorated poles, conductors, transformers, and appurtenances. The existing system has deteriorated to the point that the system cannot provide viable power to key mission support facilities.	

DoD Component: Air Force  
Appropriation: O&M (3400)

State      Location/Installation

Project Title

NC

SEYMOUR JOHNSON AIR FORCE BASE

REPAIR ROOFS

660

Project replaces built-up roofs on the supply warehouse and the boiler plant. Existing roofing has exceeded its useful life and is no longer economical to maintain. The mission of both organizations is impaired and government supplies and equipment are at risk due to leaks.

NC

SEYMOUR JOHNSON AIR FORCE BASE

REPAIR STEAM LINES

583

Project replaces old, deteriorated steam lines and manholes throughout the steam distribution system. The system is plagued with leaks making the system inefficient and expensive to operate. Project is required to provide a reliable, energy efficient distribution system.

NC

SEYMOUR JOHNSON AIR FORCE BASE

REPAIR ELECTRICAL DISTRIBUTION

785

Project replaces primary overhead electrical lines, poles, and associated equipment. The system was installed over 35 years ago and has received no major upgrades. The system is unreliable and outages are becoming more frequent. Project is required to ensure adequate electrical distribution is available for the base.

DoD Component: Air Force  
 Appropriation: O&M (3400)

REPAIR RUNWAY

VANCE AIR FORCE BASE

OK

1,389

Project replaces 19,900 SY of existing failed concrete runway slabs with new 10 inch concrete slabs. Work also includes replacement of existing base course materials, replacement of existing unsuitable subgrade, repair of spalled areas, slab grooving and repainting markings. This project is required to keep runway usable for accomplishment of the flying training mission. If this project is not provided, the probability of aircraft engine damage due to foreign object damage from failed slabs will continually increase.

REPLACE STEAM LINES

CHARLESTON AIR FORCE BASE

SC

1,000

Project replaces steam pipes and condensate lines. The existing system is old and pipes are corroded and leaking. Project is required to provide a reliable, energy efficient distribution system.

REPAIR TAXIWAY F

SHAW AIR FORCE BASE

SC

750

Project replaces existing 6 inch concrete and asphalt overlay on Taxiway F with 14 inches of concrete. This taxiway is used extensively because it is a mid-runway taxiway that landing aircraft use to avoid

hinders the accomplishment of avionics maintenance. Without this project, avionics maintenance will continue to be marginally supported by an inefficient and substandard facility.

CA

BEALE AIR FORCE BASE

REPAIR OPERATIONS FACILITY

1,200

Project repairs 99th Squadron Operations Facility. Repairs include heating, ventilation and air conditioning (HVAC) and electrical systems, interior revitalization by reconfiguring partition layout and replacing interior finishes, and asbestos abatement. This facility is 28 years old with obsolete/inefficient HVAC and electrical systems, and deteriorated interior finishes. The 99th Squadron Operations offices also are located in other base facilities. This project will enable consolidation of all squadron administrative functions. Without this project, this facility will continue to deteriorate, and physical separation of squadron offices will negatively impact their ability to function efficiently.

CA

MCCLELLAN AIR FORCE BASE

REPAIR TAXIWAY

600

Project repairs cracked slabs and seals joints on the taxiway. Joint material has deteriorated and must be replaced to keep water from entering joints and damaging the concrete. Damaged concrete greatly increases the potential for foreign object damage to aircraft engines. If this project is not accomplished, more extensive future repairs will be required.

## REAL PROPERTY MAINTENANCE ACTIVITIES

### FY 1996/1997 PRESIDENT'S BUDGET

#### FY 1997 Major Repair/Major Repair With Concurrent Minor Construction Projects (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	((\$000)) <u>Cost</u>
--------------	------------------------------	----------------------	--------------------------

Project repairs electrical distribution switching station #2 by replacing major components and reconfiguring switching to restore safety and efficiency of the electrical distribution system. Existing switching equipment has deteriorated, is unreliable, and does not provide an efficient system to isolate faults for repair without losing power to essential facilities.

LA

BARKSDALE AIR FORCE BASE

REPAIR RUNWAY

6,500

Project replaces deteriorated concrete slabs at the north and south end of main runway. The runway pavement is over 40 years old and heavy use by large aircraft has resulted in cracked/spalled slabs which require extensive maintenance with frequent disruption of flying operations for repairs. The keel section and miscellaneous slabs were replaced in FY92. This project is required to complete the replacement of failed concrete slabs on the heavily used north and south ends of Barksdale's only active runway.

LA

BARKSDALE AIR FORCE BASE

REPAIR MUNITIONS ROADS

1,500

Project replaces deteriorated asphalt roads within the conventional weapons storage area with concrete pavement. Heavy loads from transporting conventional munitions have caused asphalt roadways and loading aprons to deteriorate at an accelerated rate. This project is required to provide sound pavement surfaces for the safe loading and transportation of conventional weapons.

DoD Component: Air Force

OH	WRIGHT-PATTERSON AIR FORCE BASE	REPAIR BASE ROOFS	1,270
		Project repairs severely deteriorating roofing on various facilities. Existing roofing is failing and threatens to expose interior finishes and equipment to damaging water intrusion. If this project is not accomplished, moisture problems and leak conditions will accelerate leading to more expensive repairs.	
OK	ALTUS AIR FORCE BASE	REPAIR BASE ROOFS	500
		Project replaces built-up roofing on various facilities including the child care center and the fire station. These roofs have exceeded their life cycle, have recurring leaks and are degrading rapidly. If this project is not accomplished, moisture problems and leak conditions will accelerate leading to more expensive repairs.	
OK	TINKER AIR FORCE BASE	REPLACE GAS LINES	600
		Project replaces severely deteriorated gas lines and valves servicing the industrial complex. Any outage would shut down the maintenance depot function and put the entire area on emergency boilers.	
OK	TINKER AIR FORCE BASE	REPAIR TAXIWAY D	1,016

DoD Component: Air Force  
Appropriation: O&M (3400)

REAL PROPERTY MAINTENANCE ACTIVITIES

FY 1996/1997 PRESIDENT'S BUDGET

FY 1997 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

(\$000)

Cost

State

Location/Installation

Project Title

Project replaces broken concrete slabs and old joint sealing on the taxiway. The broken concrete slabs and badly spalled areas create a potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue causing more extensive future repairs.

SC

CHARLESTON AIR FORCE BASE

REPLACE WATER LINES

588

Project replaces 6" cement asbestos pipe that serves the west side of the base. The pipe line is over 30 years old and severely deteriorated. A computer assisted hydraulic analysis also indicated that this line is too small to provide adequate fire flows in this area. If this project is not accomplished, the piping will continue to deteriorate and critical base assets will lack adequate fire protection.

SC

SHAW AIR FORCE BASE

REPAIR SWITCHING STATION

1,500

Project replaces existing 1950 oil circuit breakers and reclosers with new, state-of-art switching equipment. The existing equipment was rebuilt twice, the last rebuild occurring 10 years ago. The equipment is becoming unreliable and replacement parts are getting harder to find. If existing equipment is not replaced, the potential for major power outages and total system failure will continually increase.

DoD Component: Air Force  
Appropriation: O&M (3400)

SC

SHAW AIR FORCE BASE

REPAIR PARKING APRON

1,902

Project replaces concrete pavement on Apron 1 which provides parking for heavy transient aircraft and fighter aircraft. Existing pavement is over 40 years old and is severely deteriorated. The deteriorated pavement presents a safety hazard as it increases the potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue causing more extensive future repairs.

TX

DYESS AIR FORCE BASE

REPAIR AIRFIELD LIGHTING

1,761

Project replaces existing direct buried electric power cables with new cables encased in concrete duct banks for maximum maintainability. Existing cables are 38 years old, have exceeded their normal life expectancy and have an increasing frequency of failure. This project is required to reduce runway lighting downtime and provide a reliable lighting system.

(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( <u>\$000</u> ) <u>Cost</u>
TX	KELLY AIR FORCE BASE	REPAIR WATER LINES	930
		Project replaces deteriorated and undersized water distribution system for the west side of the base. The amount of water provided to this part of the base is adequate for domestic demand, but inadequate for fire flow demands. If this project is not accomplished, the waterlines will continue to deteriorate and critical depot maintenance assets will have inadequate fire protection.	
TX	LAUGHLIN AIR FORCE BASE	REPAIR PARKING APRON	1,340
		Project replaces concrete slabs on aircraft parking apron, rows P and Q. The parking apron is over 40 years old, cracked and failure is imminent. The cracked pavement presents a safety hazard as it increases the potential for foreign object damage to aircraft engines and personnel. If this project is not accomplished, deterioration will continue causing more extensive future repairs.	
TX	RANDOLPH AIR FORCE BASE	REPAIR AIRFIELD PAVEMENTS	630
		Project replaces and reseals existing joints on the west taxiway and west apron. Existing pavements were constructed in 1945 with the joints being rebuilt in 1969. If this project is not accomplished, deterioration will continue increasing the potential for foreign object damage to aircraft engines and personnel.

Appropriation: O&M (3400)

# REAL PROPERTY MAINTENANCE ACTIVITIES

## FY 1996/1997 PRESIDENT'S BUDGET

FY 1997 Major Repair/Major Repair With Concurrent Minor Construction Projects  
(Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	( <u>\$000</u> ) <u>Cost</u>
UT	HILL AIR FORCE BASE	REPAIR BASE ROOFS	750
	Project repairs roofs on several facilities. Roofs are beyond their useful life and are beginning to fail even with increased maintenance. If this project is not accomplished, deterioration will continue causing more extensive future repairs.		
UT	HILL AIR FORCE BASE	PAVEMENT MARKINGS	539
	Project provides pavement markings for the airfields and the base streets. The markings require repainting due to extreme weather conditions in this area and normal use. If this project is not accomplished, deterioration of the markings will continue to the point of not being seen, resulting in safety hazards.		
VA	LANGLEY AIR FORCE BASE	REPAIR WEST APRON	1,750
	Project will repair the existing pavement, seal cracks and replace slabs for the aircraft parking apron. Existing pavement is cracked and failure is imminent. The cracked pavement presents a safety hazard as it increases the potential for foreign object damage to aircraft engines and personnel. If this project is not accomplished, deterioration will continue, causing more extensive repairs in the future.

Appropriation: O&M (3400)

## REAL PROPERTY MAINTENANCE ACTIVITIES

### FY 1996/1997 PRESIDENT'S BUDGET

#### FY 1997 Major Repair/Major Repair With Concurrent Minor Construction Projects (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	((\$000)) <u>Cost</u>
VA	LANGLEY AIR FORCE BASE	REPAIR ELECTRICAL SWITCHES	1,300
	Project replaces 65 old unsafe oil switches with new air type switches. The type of oil switch currently in use has been identified by the Air Force as a safety hazard. Failure of these switches in previous years resulted in several fatalities throughout the Air Force.		
WA	FAIRCHILD AIR FORCE BASE	REPAIR AIRFIELD PAVEMENTS	1,650
	Project repairs the runway overruns and the parallel taxiway. These surfaces are cracked and are becoming a major foreign object damage problem for aircraft. This project overlays the overruns with two inches of asphalt and seals the cracks on the taxiway shoulders. If this project is not accomplished, deterioration will continue and require more extensive future repairs.		
WA	MCCORD AIR FORCE BASE	REPAIR STEAM LINES	969
	Project replaces deteriorated underground steam lines with above ground steam lines. The existing underground steam lines are not cathodically protected and consequently serve as sacrificial anodes, resulting in frequent breaks. These lines service terminal operations and data processing. If this project is not accomplished, mission disruptions will continue due to steam line breaks.

# Air Force Real Property (RPM) Requirements (\$ in Thousands)

Beginning in FY 1996 the Air Force will no longer use Backlog of Maintenance and Repair (BMAR) to assess our Real Property Maintenance (RPM) program. Air Force instituted the Commanders' Facility Assessment (CFA) which links facility condition to mission accomplishment and ensures resources for maintenance, repair, and minor construction are allocated to the most critical mission needs of field commanders. CFA requires field commanders to identify RPM requirements in two categories.

First is Preservation Maintenance Level (PML), or "must pay" which identifies resources necessary to accomplish day-to-day maintenance required to preclude further deterioration of real property facilities and infrastructure.

Secondly commanders identify and prioritize (three levels) their remaining facility requirements necessary to accomplish their mission. Level I or "unsatisfactory" reflects deficiencies which, if not corrected, cause frequent mission interruptions, accelerate facility deterioration (resulting in high life cycle maintenance costs), curtail some operations or eliminate them altogether, and degrade livability and workplace conditions. Level II or "degraded" deficiencies, if not corrected, impair mission support and require work-rounds, thereby reducing effectiveness of the workforce and speeding deterioration of facilities. Level III, or "adequate" rated facilities do not impair mission accomplishment. However, these requirements improve operational productivity and reduce operating costs (facility consolidations, demolitions, and energy conservation measures.)

## A. BACKLOG - BEGINNING OF YEAR:

	<u>FY 94</u>	<u>FY 95</u>	<u>FY 96</u>	<u>FY 97</u>
(Backlog Carried Forward from Prior Years)	1,750,922	2,103,587		
(Minus Backlog for Base Closures/Realignments)	107,197	115,997		
(Minus Backlog More Than Four Years Old)	245,129	297,926		
(Adjusted Backlog Carried Forward)	1,398,596	1,689,664		
(Inflation Adjustment)	36,644	50,322		
(Foreign Currency Revaluation)				

## B. REQUIREMENTS

(Recurring Maintenance & Repair)	997,862	1,014,877		
(Major Repair Projects)	728,493	770,085		
(Backlog Deterioration)	42,692	54,285		
Commander's Facility Assessment (CFA)				
Unfunded Requirement carried forward from prior year				2,989,000
Inflation Adjustment				90,000
Recurring Day-to-Day Maintenance			1,180,000	1,185,000
Unsatisfactory (LvL I)-Facilities provide minimal mission support			795,000	
Degraded (LvL II)-Facilities provide impaired mission support			2,547,000	

\* Adequate (LvL III)-Improve energy efficiency, consolidation, demolition  
\* Data for "adequate" not available until November 95

## C. TOTAL REQUIREMENTS (A+B)

	3,204,287	3,579,233	4,522,000	4,264,000
--	-----------	-----------	-----------	-----------

## D. PROGRAM ADJUSTMENTS:

(Direct Program Funding)	1,100,700	1,063,065	1,533,000	1,600,000
(Fund Migration From Other Program Areas)				
(Net Other Adjustments)				

## E. BACKLOG - END OF YEAR (C-D)

	2,103,587	2,516,168		
--	-----------	-----------	--	--

## F. UNFUNDED CFA REQUIREMENTS - END OF YEAR (C-D)

		2,989,000	2,664,000	
--	--	-----------	-----------	--

DoD Component: Air Force  
Appropriation: O&M (3400) and RDT&E (3600)

## Maintenance of Real Property Facilities (Dollars in Thousands)

### SUMMARY

	FY 1994 <u>Actuals</u>	FY 1995 <u>Estimate</u>	FY 1996 <u>Estimate</u>	FY 1997 <u>Estimate</u>
<b>1. Funded Program</b>				
a. <u>Category of Maintenance</u>				
(1) Recurring Maintenance	685,739	648,648	876,002	914,401
(2) Repair Projects	88,217	83,445	112,693	117,633
a. up to \$15,000 per project	402,269	380,510	513,881	536,407
b. greater than \$15,000 per project				
(3) Minor Construction				
a. up to \$15,000 per project	7,435	8,897	14,195	14,601
b. greater than \$15,000 per project	54,522	65,248	104,098	107,072
Total RPM:	1,238,182	1,186,748	1,620,869	1,690,114
b. <u>Budget Activity</u>				
O&M (3400)	1,188,918	1,132,322	1,532,855	1,600,241
RDT&E (3600)	49,264	54,426	88,014	89,873
Total RPM:	1,238,182	1,186,748	1,620,869	1,690,114
c. Staffing (End Strength - O&M only)				
Military Personnel:	11,607	9,969	9,320	8,999
Civilian Personnel:	12,437	10,489	10,194	9,867
<b>2. <u>Backlog of Maintenance and Repair</u></b>				
Unfunded Requirements (Commanders' Facility Assessment)	2,103,587	2,516,168	2,989,000	2,664,000

NOTES: 1. The National Foreign Intelligence Program (PE 311XX) is excluded from the above data.  
2. FY94 actuals understated because Air Mobility Command was in the DBOF.

DoD Component: Air Force

NOTES: 1. National Foreign Intelligence Program (PE 31XXX) is excluded from the above data  
2. FY94 actuals understated because Air Mobility Command was in the DBOF.

# DEPARTMENT OF THE AIR FORCE OVERSEAS MILITARY FACILITY INVESTMENT RECOVERY ACCOUNT

(Dollars in Thousands)

## PART A: REAL PROPERTY ASSETS DISPOSED

Host nation providing consideration/payment: Canada

1. Description of facility, location, and amount received:  
Canadian Air Force Base located at Goosebay, Newfoundland  
All buildings, structures, and improvements, permanently  
affixed to the reality including those that may have been  
constructed or financed by the United States and occupied  
by the United States Air Force (USAF).

(a) Total amount of the investment  
(Cost plus improvements) in the facility:

\$6,143

None

(b) Depreciated value or residual value of facility:

\$3,529

None

(c) Explanation of any difference between amount received  
from host nation and the depreciated value:

United States and Canada are still negotiating the  
settlement of financial claims. So far, Canada has  
accepted \$1.6 million of residual value claims.

Total payments by host nation:

\$1,579

None

Total payments by all host nations:

\$1,579

None

## Part B: PROPOSED REAL PROPERTY MAINTENANCE OR ENVIRONMENTAL RESTORATION/COMPLIANCE PROJECTS AT MILITARY INSTALLATIONS PROPOSED TO BE FUNDED FROM PROCEEDS:
